Strategic Development and Deployment

Quality Policy

The quality policy of the institute states “BIET” is engaged in imparting quality technical education and training to prepare responsible technocrats for effective nation building. The quality policy aims achieving customer satisfaction. It constantly strives towards achieving high standards of teaching, training and development of human resources by encouraging its faculty and staff to work as a team and to update their knowledge skills continually to match the needs of industry.

The institute strongly believes that to reach the position stated in Vision and Mission statements, the human resource is the prime factor amongst the other resources. In the present scenario of liberalization and highly competitive world, to become a world class institute one has to bestow the end-user with the best possible service. Basing on this idea the quality policy was developed. All the activities driven by the quality policy and are closely monitored. The various performance indicators like pass percentage, input ranks, placements, achievements in co-curricular activities of students and the achievements or the faculty will be critically analyzed each Semester / year and reviewed.

Review

Successful implementation of the processes is monitored at various levels by evaluating the students' performance by teachers, teachers' performance by HOD and HODs' by performance by the Principal. The co-ordination of IQAC in the various monitoring processes also helps in the review processes.

Perspective plans of the Institution

The institution plans the expansion and up gradation of infrastructure, modernization of existing facilities, research and development and adoption of new courses. The principal and Heads of the departments plan academic activities, consultancy. MoUs, Innovations in teaching and learning process etc. The institute is striving hard for

- NBA accreditation
- NAAC accreditation
- Autonomous Status
- More number of MoUs with Industries Improving the Industry Institute relationship.

Bridge between the Top Management and Stake holders

The Principal initiates dialogue and discussion with various stakeholders through different committees, Cells/Clubs/Associations, Alumni and Parents and conveys the management about the feedback, views and sentiments of the stakeholders for effective decision-making. The Principal interacts with Students, Alumni, Employers, Community, Academic peers, Industries and parents.

Feedback from students:

In the semester, for each course, students' feedback is taken in a structured format consisting of major parameters pertaining to teaching- learning process. This feedback is collected by a faculty member, who does not handle the particular class, to ensure free and fair response.

The responses are subject to Data Processing and the results are analysed by the HODs and the Principal, and the feedback is communicated to the faculty members concerned wherever necessary, for any remedial action and improvement.

Students' feedback on value added programmes conducted (for example lectures, seminars, employability camp, etc.) is obtained at the end of the programme by distributing suitable questionnaire, Based on their response, necessary changes are suitably planned in organizing such events.

Feedback from Alumni:

The Placement & Training Cell in co-ordination with the faculty members in charge from each department to the task of collecting feedback from alumni.

The departments have created group e-mail id's/ whatsapp groups in which one or two of the faculty members have joined as members. This arrangement facilitates regular interaction with the alumni and helps the department to understand their progress and obtain necessary feedback at the central level. The Placement and Training Officer co-ordinates the annual alumni meet and alumni association related activities. On completion of course, program outcomes attainment is collected from the graduates.

Employers' feedback:

The In-charge. Training and Placement Cell is continuously in contact with the organizations in which students are placed.

The feedback is obtained through the telephonic conversation and personal discussion with the HR Personnel and other senior officials of the organization and also through collection of details by sending a structured questionnaire.

Feedback is also obtained by the alumni from their employers and sent to the departments.

Community feedback:

The NSS Unit Of the college has been actively involved in rendering services such as conducting awareness programmes in Environmental Protection, Health, First Aid and General Safety. Further, blood donation camps, literacy camps and teaching computer fundamentals to rural children are some of the other activities.

The students collect the feedback of the people who make use of such services regarding the help availed by them, suggestion for improvement and scope for expansion. This feedback helps to improve the quality of service in the future camps.

How are the feedbacks used for significant changes in the curriculum?

The feedback from the students helps to understand the merits and weakness if any in the teaching-learning process and take remedial measures like arranging guest lectures, special classes and industrial visits.

The feedback from the alumni and employers help to understand the current industry needs and practices which can be passed on to the students to make them readily employable.

Community feedback helps to improve and expand the services rendered to the neighbourhood community.

Feedback from academic peers and industry helps the institution to improve the quality of education and skill impartation and improve the competency level of the students.
