**Annual Progress Report for AICTE Funded Project under
Modernization and Removal Obsolescence (MODROBS)**

MODROB Scheme has enhanced the research facilities in Geotechnical Engineering Laboratory of Civil Engineering department of K.S.R.M. College of Engineering (Autonomous), Kadapa, A.P. M.Tech Projects have got enhanced research value. Students both UG & PG have exposed to digital equipment and obtaining very accurate readings while conducting shear test and consolidation test on various soil samples. As the foundation geometry of buildings and other structures is very much depend on shear strength characteristics and durability of structures depend on consolidation characteristics, accurate assessments of soil behavior has become possible and suitable economical foundation geometry is arrived. This in turn reduced the over all cost of construction of buildings and other structures. The equipment procured through MODROB scheme has helped the public in reducing cost of construction of buildings and other structures. The purpose for which this project is initiated has thus full filled the objectives.
